

## **Announcement:**

We have a new name – the rest remains the same!

Hansa Meyer Heavy Haul & Rigging USA, LLC will become **ATLAS Heavy Transport LLC** and Hansa Meyer Global Transport USA LLC will become **ATLAS Heavy Projects LLC**.

While you will receive the same quality of service that you have always relied upon, the name change and rebranding symbolizes a new era in our company where we can focus on what we do best; heavy transports, rigging, engineering and solutions to move complex cargo anywhere in the world with the support of our network of 260 project-focused partners worldwide.

You will notice our name and logo is changing soon on all of our equipment, emails, invoices and promotional material. We are still the same team with the same great service, same phone numbers and same address - we just have a new name. Our ownership is now 100% in the US, which allows us to continue to invest in equipment and our people to support our growth strategies.

All contracts, quotations and other agreements, remain in place, but please contact us if you have any questions or would like us to formally substitute the name Atlas for our previous name in your documents.

We at **ATLAS** Heavy Transport LLC and **ATLAS** Heavy Projects LLC are excited and look forward to continue working with you. We truly appreciate your business – thank you for trust in us.

Please contact us if you have any questions.

Frank Scheibner  
President & CEO
